## ECLECTIC PERFECTION

FROM A CHARACTERFUL RENOVATION IN BERKSHIRE  
TO THE QUIET ELEGANCE OF A LONDON FAMILY HOUSE

## 2 DISPLAY

Open cupboards and shelving make storage stylish

**1** Made-to-measure storage is not the only option. Auctions and antique fairs, and websites such as The Saleroom, are great places to find free-standing pieces, such as the open-sided Victorian shelving in this kitchen. [the-saleroom.com](http://the-saleroom.com) | [retrovius.com](http://retrovius.com) **2** This display unit by kitchen company Lanserring is as beautiful as it is practical, with its deep petroleum oak chevron doors, woven mesh sliding panel and walnut drawers and shelves. [lanserring.com](http://lanserring.com) **3** Repurpose an existing piece of furniture, as in this kitchen by Maria Speake. She had this island made from a piece of mahogany museum furniture and then added a mirrored partition 15cm from the front to create a display unit for glassware and ceramics. [retrovius.com](http://retrovius.com) **4** Two long, open shelves provide elegant storage in this kitchen by the interior designer Rose Uniacke. [roseuniacke.com](http://roseuniacke.com) **5** Special storage compartments for glassware and jars have been built into this smart 'Phoenix' kitchen by Poliform.
